

DEVELOPING TEACHERS

Who is it for?

This course is aimed at language teachers at all levels of knowledge and experience. Furthermore, because the course content focuses on improving core teaching skills and developing best practice in the classroom teachers from different backgrounds can all benefit, whether you mainly teach large groups of children, or adults in a 121 situation.

The course is delivered in English.

What are the aims

To develop you as a teacher, through reflecting on your teaching practice, learning some new techniques and methods, and getting some practical ideas for the language classroom.

How is the course set up?

The Developing Teachers course is built around what the participants attending each week really need. Before every course we send out a questionnaire to find out more about the participants and the kind of support and input they want. And in order to help you in your context we encourage you to bring along books and materials you typically work with so you can apply what you learn directly into your lessons.

Why should I do a course like this?

As teachers we believe that learning is a vital part of life, that when we commit to do something we

should aim to do it to the best of our ability and not be afraid to change, adjust and develop.

Price

4 900 Kč per participant

Discounts (only the course price)
